## Introduction:

I2SM is the International Symposium on Sediment Management first organized in 2008 in Lille, France, with the aim of bringing together researchers, industrialists, design offices and waterway managers around transdisciplinary problems of sediment management. The 7th edition which was to take place in 2020 in Lille has been postponed to June 2021 following the covid health crisis.

After 13 years of success (in Morocco in 2010, in India in 2012, in Italy in 2014, in Canada in 2016 and in Mexico in 2018, Lille 2021), Tangier 2024 will once again be the host city of I2SM.

To celebrate this event, you are all invited to participate in this special edition.

...On this occasion, several cultural activities will be offered to discover the Moroccan culture.

## Topics:

- Sediments and water
- Dredging, treatments and remediation
- Environmental impacts and regulations
- Characterization and monitoring of parameters (mechanical, environmental, ...)
- Sustainable sediment management
- Operational decision support, multi-criteria and Artificial Intelligence
- Reuse, recovery and life cycle analysis
- Circular economy strategies for the management of waste and sediment
- Marine pollution and climate change.

## Conference Fees:

Participants	Registrations		Registrations price (spécial Africa)	
	Registrations before 15 May	registrations after 15 May	Registrations before 15 May	Registrations after 15 May
Industrials	500 Euros	700 Euros	500 Euros	700 Euros
Reserchers	250	300	200	250
Students	170	200	140	170
Gala Dinner	50 Euros		50 Euros	

The selected articles will be published in one of the journals:

- 1- "Special Issue "Journal of Innovative Construction Materials for Sustainable Development"
- 2- Journal of Asian Architecture and Building Engineering: Sustainable Construction and Green Building Material.
- 3- MDPI Journal of Applied Sciences

## Come to Morocco

Come and discover Tangier, a dynamic and cultural city in Morocco. Due to its geographical location, Tangier is a crossroads of culture. Its historic center presents a rich architecture representative of a traditional oriental city.

Your stay in Tangier will be an excellent opportunity to discover the famous souks, its streets with warm colors and the smell of spices.
